Abstract Submission Details

The decision regarding selection of abstract for oral/poster presentation by the scientific review committee of ISAR-DC is final. Once selected, the participants will be intimated via email regarding the guidelines for presentations.

Instructions for abstract submission:

1. All abstracts should preferably be based on original research or case studies. Systematic reviews and metaanalyses are acceptable if registered with Cochrane, Prospero or any other international Systematic Review database
2. Title of the presentation (up to 15 words) followed by the name and designation of authors, their institutional affiliations with address, and email ID of the presenting author
3. The body of the abstract should be structured into four headings: Introduction, Materials and methods, Results, and Conclusions
4. Word count must be limited to 250 words
5. Please provide 5 keywords
6. Apply the following format options: Times New Roman, Font Size: 12, Spacing: Double
7. **Deadline for abstract submission is 15th October 2025**
